The Easymixer

Lab Dissolver for mixing and dissolving of paste, PVC-, PU-paste, lacquers, dispersion paint etc.

Lab dissolver consist of:

- Rack with chain tension and linear guide
- in height adjustable, with fixing device
- AC motor with 400- 2000 U/min.
- Mechanical gear regulation for speed adjustment
- Mixing container (5 liter)
- different dispersion disk
- Operator control panel with on /off switch

The Labdissolver

Technical data

- 20 litres capacity
- speed 650 - 3000 min⁻¹
- with vacuum unit
- integrated side scraper
- ex proofed
